In the extension of the corridor you will see the azure sea behind the pool.

The property is very well maintained. With recently a new kitchen.

Price: € 389,000.- Buyers Cost

Coral Estate

The road to Banda Abou will take you to the prettiest beaches and bays of Curaçao, Daai Booi, Porto Marie, Cas Abou Beach etc. On this road you will discover Coral Estate. The resort is located on the southwest coast of Curacao in a beautiful untouched nature, 20 minutes to drive from Hato International Airport and 25 minutes from Willemstad.

Coral Estate Resort is surrounded by at one side the salt marshes of Jan Kok (well-known by its flamingos) and on the other side by the Caribbean Sea. The natural difference allows an insight into the azure sea! Coral Estate is the only resort on Curaçao that has a lengthy three kilometers long coastline on the Caribbean Sea, providing some of our oceanfront properties with a private beach. Our beautiful lots are located on natural terraced plateaus and our hilly landscape makes for a clear view of the ocean from every single villa, creating unique personal paradises for all our residents.

Coral Estate is a prestigious gated resort which is offering its residents and highly demanding visitors the Tranquility, Space and ultimate Privacy they demand. Coral Estate has its own beautiful beach, 24/7 security, restaurant, spa and wellness and recently opened tapas bar 'Koraal'. Soon the bakery will be opened.

There are approximately 250 exclusive villas at Coral Estate. The immense territory provides ample possibilities to develop more real estate in the years to come.
